Accredited by the

British Council Inspection 2022

for the teaching of English in the UK

Westbourne Academy had our latest British Council inspection in September 2022 and successfully passed with flying colours!!
(to be extremely successful, to achieve something that is difficult)

Please find below some comments from the inspectors:

Management - The management of the provision operates strongly to the benefit of the students, and in accordance with the provider's stated goals, values, and publicity.

Premises and resources - The premises provide students and staff with a comfortable and professional environment for work and relaxation. A good range of learning resources is available, appropriate to the age and needs of the students.
Teaching and learning - Courses are well structured and effectively managed to provide the maximum possible benefit to students.

Welfare and student services - Students are well cared for by competent staff in a safe and secure environment. The leisure programme is interesting and varied and students are given a wealth of information about what is happening locally.

Safeguarding under 18s - There is a comprehensive safeguarding policy and staff and homestay hosts receive appropriate training. There are good arrangements for keeping students safe in the school and during the leisure activities.
